

80s Rock Star falsely imprisoned, illegally extradited suing Spanish government for miscarriage of justice & corruption

I need a lawyer, my human rights have been smashed and I want redress.

I have tried to contact lawyers many times and been stopped. Many of our attempts to get justice get side track with intercepted communications and much worse. I need a lawyer I can believe in and trust. All i have witnessed is corruption in the justice system to an astonishing degree both in Spain and in the UK. **I once believed in justice, make me believe it again!**

I have Never been charged!

There is no Indictment, I was imprisoned for 30 months illegally, I have had this hanging over me, without charge for 24 years and had my life destroyed ruining my music career. I was originally arrested along with 12 others in relation to the murder of a Norwegian man, at that time i was about to record a solo album in his 24 track recording studio that was in his house. I only knew him as a guy who had a recording studio. The guys that introduced me to him were responsible for his death, we know this for a fact but no charges have ever been brought against them, i was a witness to the case only. At the first court hearing in court number 4 Marbella they established i was not there at the crime scene using forensic evidence, as they had the carpets from the crime and my footprints were not there, the magistrate said in court i was not there and was not responsible, we want the people who were in court that day and the court transcripts published as part of the case.

This was me before they wrecked my life!

I was a well known musician with a record and publishing contracts, and a member of the British Academy of Songwriters Composers and Authors (BASCA).

This was me at the time of the arrest: www.aiiz.co.uk

Here are documents that prove what I was.

BASCA & PRS Membership (BASCA was awarded by achievement then)

Polydor Major Recording Contract, Major Management Contract with the biggest management agency in Europe Kennady Street, also publishing contract with St Annes, 10cc etc.

Me at the PRS actively involved in the industry, and with Barry Mason (Famous song writer wrote the song Delilah for Tom Jones and director of the PRS and BASCA) Barry campaigned to get me out of prison including doing benefit concerts for me.

Me on the front cover of Metal Mania magazine an important publication at that time I also have Kerrang interviews, double page pull outs with me one on one, I am in the first 5 issues of the Kerrang magazine, also playing in TYTAN a popular UK band at the time.

Me playing with Tytan at the famous Marquee Club in London

The two certificates are National Awards for song writing in both written and performed categories, first place. The year shows that I was actively pursuing my career. Andy Scott from the group The Sweet our producer at the time recommended me to Brian Johnson lead singer with AC/DC to do his solo album, I was recommended as the best UK rock guitarist around at that point. I met with Brian in London.

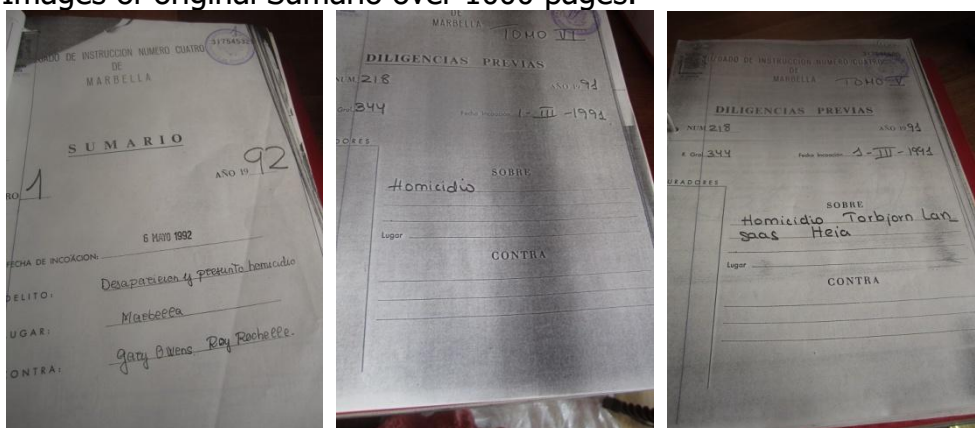

Here is where the case is at!

The current court papers as far as I can see, seem fabricated, I have all the original photocopies of documents from the case, the full Sumario, the court here don't seem to have the right documents or don't understand the case, they are asking all the wrong questions to the wrong people.

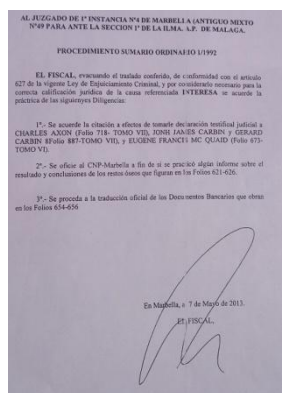

These three images are the original finished and closed Sumario. I was given these documents that include all forensic and investigation notes and statements by the judge directly upon my request. The case was over and I was told for me there would be no case to answer. I got the documents because I wanted continue the investigation, and would be receiving help via the UK authorities to do this.

Images of original Sumario over 1000 pages.

When I eventually returned to Marbella after being fraudulently extradited on purgered statements from SOCA (Serious Organised Crime Agency), I was confronted with another Sumario. I have no idea if its the same document, but my point here is that if I had the full case file of the Sumario, what was I doing with it if the case was still open? Clearly the case was over! Making the extradition illegal, and falsely imprisoning me for a third time over the same case. This case was re hashed by unscrupulous people for a different agenda as will become clear as you learn more.

Below are three documents we were given by our court appointed lawyer who we only found we had on the 23 of April 2015, she knows nothing and was very evasive and would not help us in any way. The lawyer from 24 years ago we were appointed is at the same office, he came in at the end and did not witness the corruption we saw, we never trusted him, the whole thing has been a fit up.

The first lawyer we had appointed was Manuel Linares de Oliver, that was after 2 years in prison, the judge under pressure from the justice ministry brought him to the prison I was held in, he spoke English, and they explained to me that I had been held because she had been arrested and that her husband Inspector Jimanez (head of the international crime squad and lead investigator, in our eyes a miscarriage of justice in itself) had sign court documents in her absence committing an imprison able offence and falsely imprisoning me.

Inspector Jimanez did this because I had been treated very poorly while in the Aresto Municipio in Marbella when first arrested and I broke out and booked into a hotel close by, I left a letter to the judge explaining why, it led to everyone in the Aresto Municipio being sacked and closed. So it was out of revenge they imprisoned me not because of this case. There was a police officer on duty that was studying to be a lawyer who told me they were trying to set me up on the charges and he did not agree with it, so I left. When I got out of prison years later I found out that Linares was the lawyer of the person that committed the Murder and bought properties for him, another miscarriage of justice perpetrated by the judge. There is a lot more to this part of events.

There is for sure corruption in this case at several levels, the lawyer the court appointed us is the partner of the one we had 24 years ago after i asked the court not to appoint them as i did not trust or want them. They keep moving the case from one building to another and from different judges and fiscals, its a game they are playing not a court case. So far the case has been at 4 court houses, 4 judges and 4 fiscals all appear to want to wash their hands of it.

There are many documents, I have every document, I have about a third here in Spain and the rest in the UK.

On the 21st of April 2015 we asked a local lawyer who spoke English to try to find out what was going on as I was extradited 6 years ago as a matter of urgency costing millions in costs to Spain and the UK, the case went all the way to the supreme court in the UK, they would not sit and hear it at the House of Lords as it would be televised, my case was the first case ever filed at the supreme court in the UK which is more than a coincidence!

Our local lawyer phoned the Fiscals office, she found the name of the lawyer and spoke to the functionary of the Fiscal who told her that the case was a mess and had been sent back as there was no evidence, the functionary actually told our lawyer that if we wait 18 months the case

would be over and we can then claim compensation, this was a huge shock to us. The case is a complete fabrication from start to finish and no one wants to touch it.

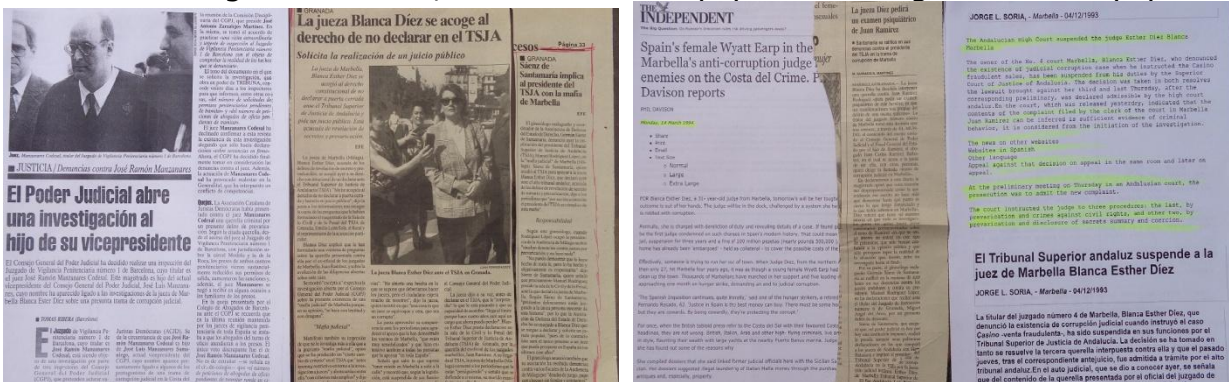

The Original Judge Dona Blanca Esther Diaz:

Originally 24 years ago the Juez de Instruccion was Dona Esther Blanca Diaz of court number 4 Marbella, you may know of this judge, I believe in part this judge was trying at times to do the right thing but she was surrounded by corruption and they wrecked her life over it, it was some sort of judicial mafia that we think is still the same, here is some info:

These are just a few clippings, I have many, you can see by the dates on her court case that she was fighting for her life and not interested in my case and told me herself she was going to prison for up to four years, I don't know what eventually happened. This is why her husband falsified the court documents to stop the corruption in my case coming out, they held me incommunicado for a year and moved me prison to prison at least 7 times so no one could find me and because I was on a protection order from the court as a witness to the case.

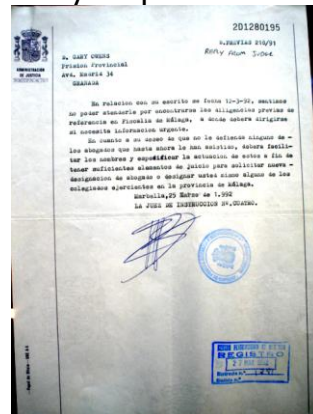

After 23 years I was asked at the court, do I know Charles Samuel Axon, as they wanted to ask him questions! This was the name I was given so that no one could find me and kill me, I was a protected witness. The fiscal still does not know this, unless the Marbella court told him in the last few months, its beyond ridiculous', it's an outrage. Below is a document that proves what I am saying, as no one knows.

There are cuttings from El Pais, El Mundo and all papers including all UK news papers.

This shows the judges signatur

This document falsely imprisoned me and was signed by Inspector Jimenez, a criminal offence.

The signatures do not match and both the judge and Jimenez went before a lawyer and were asked to do their normal official signature and it was Jimenez who signed the false document and he admitted it.

There are many other facets and documents to this case that I don't wish to disclose at this time, however regarding the Spanish case outlined above, its all made up and always was. I was never there and never knew about it.

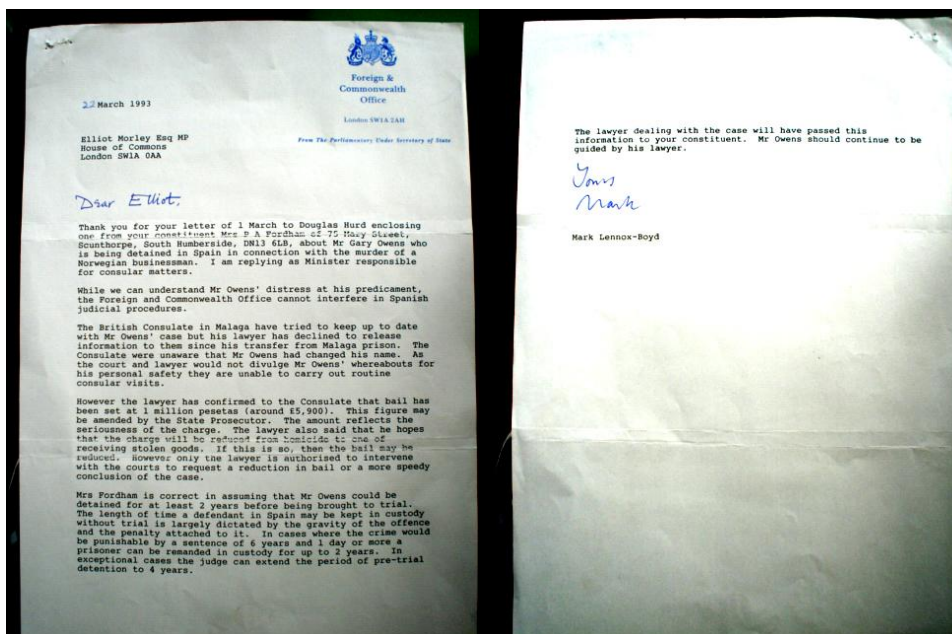

My Release From Prison:

I was held in prison 30 months with no documents or charges and no lawyer, the whole thing was corrupt, while i was in prison the court number 4 functionary was sent to prison and came to me and told me about the fact they had falsely imprisoned me and that i had the documents to prove it, i had no idea, and after checking he was right.

The Judge was on charges of corruption and was to lose her job and be the first Judge in Spanish history to go to prison.

After the consulate asked MI6 to investigate my case for Douglas Hurd, who asked Under Secretary of State for the UK Sir Mark Lennox-Boyd from the Foreign and Commonwealth Office, it was the FCO that got MI6 to investigate the case ending in Mr Boyd flying out to Spain and intervening directly at government level in Madrid in my case. I have many letters from the FCO and other government agencies that show the case building for the intervention.

Below is the first letter from the FCO

Release Telegram Proving i was held for my security.
Release Telegram as Charles Axon

Prison Release Doc Showing Name Change
Release Document as Charles Axon

Press cutting of my release from MEN

I did find out who did it and why from an MI6 agent and a Norwegian agent who met me and explained what had happened on my release. They told me the dead guy was a club owner from Norway and was buying Cocaine on the Costa del sol and taking it to Norway and distributing it through his night clubs, possibly a member of the Norwegian Mafia, the British drugs mafia killed him because he tried to go around them and deal with others so they tortured and killed him.

I was introduced to the man, by a well know rock band manager who was managing a well known person in Spain, it turned out they were all Cocaine traffickers, so when the guy was killed I was forced at gunpoint to get out of Marbella along with others. I found out the whole truth of what happened in detail during my investigation which I spent three years doing on my own, with the help of MI6 and others.

My Recruitment to work for MI6:

Once the FCO had investigated my case, i wrote them from in prison and asked if i could work with MI6 to bring the culprits to justice upon my release, they were all British drugs mafia. They agreed but i had to be signed up and have a handler, Charles Formby from the Seville consulate was given the job to contact me and put me in touch with MI6. This is the telegram that was sent to me at my wifes outside address, as they thought i was already out, but they delayed my

release, so Mr Formby visited me at the prison, while he was there he gave me the number and name of the contact officer, and told me not to refer to them as MI6 but as senior liaison officers. I wrote it on the telegram at that time and it can be electro statically tested to prove its true. Note That its in the name of Charles Axon, so the UK government knew then i was being held under protection.

No one really knows what happened as I have never had the opportunity to speak of it and was under police protection in the UK for all the time I was there, my son was also under police protection. I was told to go to the UK by Paul Studley and Toby Childs of MI6, they were my handling agents at the Madrid embassy, my life was in danger and I was nearly killed. Upon my return to the UK I was assigned a handler:

Other complicated events then took place that are for another court case in the UK to follow this one which is also on Invest4Justice.com. We believe because of those events that this case was re instigated to stop me from suing the UK government for 2 Billion GBP, I have all the evidence that this is true and am being stopped from speaking out with a gag order on the press in the UK and have been told this by an MI5 Agents who was involved in the case and witnessed part of it and knows i am telling the truth.

My whereabouts in the UK was know at all times by the police, and we can prove this I have added documents to the folder for interested parties. I was told to go to the UK by MI6 officers for my safety as the drug traffickers had found out i was investigating them.

Upon my return to the UK, I was approached by NCIS (National Criminal Intelligence Service). I was given protection and a number to call armed officers to my location should i need it.

I was invited to Scotland yard to attend an internet conference on how to capture paedophiles, only ISP owners were invited and attended, i was invited by Michael Hoskins head of the Internet crimes unit at Scotland yard who approached me at Earls court internet show the first one where my company Merlin Internet had its own stand. He came to invite me specifically to try and help bring paedophiles under control on the internet as i was a leading expert in internet, this was 1995. So any suggestion that the police did not know my whereabouts is an utter fabrication. I have many letters of correspondence with the UK police throughout my entire time in the UK. They lied to the Spanish or the Spanish never requested the EAW in the first place, this we need to get to the bottom of. This case was brought up to stop the lawsuit in the UK from going forward (Please see the other case i have on Invest4Justice.com for more details).

My son had a police protection officer assigned all through school, so its ludicrous to say they did not know our whereabouts. I have complained to the police commissioner and others and have all the letters before any European Arrest Warrant was issued. The arrest warrant was only issued once i tried to sue MI5 and others in relation to theft from me of IPR (Please see the other case i have on Invest4Justice.com for more details)

My Extradition

My extradition went all the way to the supreme court in the UK, it was outrageously corrupt and our legal team thought so too. These two images are clips from the extradition!

This was totally fabricated by them on purgered evidence and we wish to have the officers involved arrested along with tracking down the officers from MI6 who told me to go back to the UK, the call was witnessed and is recorded proving that my arrest and impronment in the UK was illegal, we want to sue everyone involved.

GARY SAMUEL OWENS v COURT OF FIRST INSTANCE MARBELLA, SPAIN (2009)

15/05/2009 // // 0 COMMENTS

[2009] EWHC 1243 (Admin)

A European arrest warrant was sufficiently particularised to meet the requirements of the Extradition Act 2003 and the Framework Decision 2002/584 and to avoid unfair prejudice to the alleged offender, whose extradition was being sought 12 years after he had absconded from the requesting state. As the passage of time was a direct result of his own conduct, it was not a bar to his extradition.

In the next image you can see that they were unable to find me, yet i was under police protection, and visited Scotland yard, my son had a protection officer, i had an NCIS agent on call, its a total fabrication.

5. The appellant is sought in respect of the murder and robbery of Torbjorn Langaas Reia on 22nd February 1991 at his home in Marbella, Spain. On 8th July 1992, Mr Reia's body was recovered from a well in Marbella. The appellant was arrested on the island of Tenerife in 1991 and brought before the court in Marbella. He was remanded in custody while the Spanish authorities investigated the matter. On 18th January 1993 he was released on bail, although he was still considered a suspect in the murder. It was a condition of bail that he appear before the court in Marbella when required. **It is common ground between the parties that Mr Owens absconded from Spain. After he absconded the Spanish authorities informed Interpol about his precise whereabouts on 3rd September 1996. Interpol was unable to locate him until 15th November 2004.**

Issue 1: The validity of the warrant

What i intend to do with the funding:

1/ File a miscarriage of justice case with the judicial authorities in Spain to end the case and claim compensation for ruining my life twice, and ask them to sue with us the UK as to why they lied to the Spanish.

We want to file a miscarriage of justice denuncia, copy to go to el poder judicial and Tribunal Superior de Justicia de Andalucía (TSJA), Junta de Andalucía and the Spanish Justice Minister and Head of state with other support letters. We want the case ended, not allowed to run out.

The Instruction Judge was married to the lead investigator in my case this led to criminal acts and corruption and is a miscarriage of justice, we have documented court documents that prove this.

Instruction judge got me a lawyer at the end after 2 years in prison, the lawyer she got was the same lawyer that represented the person who committed the crimes and paid the judge to get out of prison, and business interests. I only found that out after i was out of prison. This is clear corruption and another miscarriage of justice.

A Police officer studying to be a lawyer told me Inspector Jimenez was setting me up and he did not agree with it, we need to get this man to make an affidavit, and appear in the press with us.

The functionary from court number 4 who was sent to prison and while in prison he came and spoke to me about what went on and told me i had false imprisonment papers, i started to check this and found it was true, i still have them. We need to track this guy down and get an affidavit and appear in the press with us.

2/ I want a copy of the whole case in English, under European law i am entitled to a copy in my own language, i also want a copy in Spanish for my legal team.

3/ I want to provide the court/fiscal with some information regarding the history of the case they are not aware of.

4/ I want to file denuncias about various parties including our court appointed lawyer and make them aware that we have been followed and harassed, gang stalked, ring fenced, since we arrived here, including being robbed and kidnapped at gunpoint, having our computer stolen, by cocaine traffickers. Our internet and emails being intercepted and under constant surveillance. We want an investigation into what is going on and who is behind it. We want police security, based on the same reasons as previous and this being perpetrated by the same group of criminals. We would like to arrest the parties involved, seize equipment for analysis, and get a mobile phone usage report from round our property to build a picture of who that is and where they have been residing.

5/ I want to know exactly what went on with the judge and her husband, before during and after they falsely imprisoned me, i wish to bring a denuncia of false imprisonment, based on the evidence and criminal charges of falsifying court documents.

6/ Make the court aware that we intend to sue the UK authorities, as per www.gary-owens.com, We believe the Spanish court has been used and duped by the UK freemasons who appear to be controlling all the Drug trafficking in Spain (i have proof of this). They have used members of freemasons within the UK security services, to bring this case about because i intended to sue them in the UK, I can provide an evidential letter sent to UK MP that shows why this case was dreamt up as somebody's wet dream to steal my money and imprison me.

7/ We want a public enquiry to what has gone on in Spain, we need to petition for this through the media, to expose the Judicial Mafia and the corruption that exists here in Andalucía. To this end we will call a press conference in Madrid with all the main Spanish press and also international press. This will be done once we have had a strategy meeting with the Spanish legal team we choose.

I want to co ordinate the publicity through our lawyers office and I would like to talk openly to El Pais and other publications along with RT TV and then that will release the UK press from the gag order.

I am prepared to go to Madrid to brief the team, and give more documents in to make a timeline, also there are many documents in the UK that need to be securely transported if needed to Spain and then back for the UK court cases to follow.

I once believed in justice, make me believe it again!

This Letter was sent to our MP Mr Nic Daikin regarding what we believe to be perverting the course of justice charges we will bring against SOCA, Westminster Magistrates Court, and the British Government and all barristers involved. This will follow the first Spanish case, please see case two from my profile.

Hi Nic

Thanks for your interest in our case, it seems complicated because they have made it that way deliberately, we have now simplified the approach, we are only now dealing with the Spanish side, attached to the email is some text that is going up on a legal crowdfunding site in the next 24 hours, i will send you the URL once its live, it outlines the miscarriage of justice.

We have an area we feel you could help in with the Spanish side, that's to put pressure on the FCO to come clean and investigate what we have written in the attached document, could you please send this to them from us with your pressure added, after all they have spoon fed you a load of rubbish, if it's not them spoon feeding you then who? You need to ask some hard questions of what's going on, it's certainly not justice.

We know how to end the case as per the document attached, this explains what we are about to do, but in order to get that done it will cost around 10,000gbp which we are trying to raise at the moment via a specialist legal crowdfunding site. Once we have the money the case will be over and the people involved will be arrested. We won't be letting it go or coming back to the UK until this is sorted legally, as I want to pursue my music career and cant until this is over.

They have told us that if we wait one and a half years the case will end under law, but this is not acceptable, it's a miscarriage of justice that involves corruption at many levels and we are going to pursue it via investigative journalists, the courts and track everyone down and bring them to court. We have been told that we will get damages already by the Fiscals office once it runs out. We will be pursuing damages in excess of 10,000,000 against the Spanish authorities, and it could potentially be 100s of millions we are talking with arbitration lawyers about this at the moment. Our court cases that will follow in the UK re the false imprisonment and extradition and then a main case against the security services for over 2b gbp are all under way. I have brought this to your attention so you can see the gravity of the situation for the people involved and this should go some way to explaining why they have done what they have re this case.

Its total rubbish and as a responsible MP you should with us pursue this to the Prime minister's office and get a public enquiry going into who is corrupting the justice system, we know who, but we want a public enquiry so everyone else knows too. We will be calling for a public enquiry here in Spain via the Ministry of justice in Madrid through our lawyers and will call a press conference to this end at that time.

Think about it this way, why did my case got to the house of lords (who refused to hear it as it would be on TV) instead they sent it to the Supreme court, my case was the first ever case logged at the supreme court, its cost Spain and the UK millions to extradite me and six years later the Spanish won't even look at the case or speak to me, it's more than just a miscarriage of justice, you need to get serious level people looking into the whole fiasco.

Kind Regards

Gary Owens

This letter was sent to the FCO from the Nic Daikin office:

Request List for the FCO and Madrid Embassy:

Point One:

We would like copies of the Madrid Embassy phone call made by me to Paul Stoodley from Javea, we know they exist as i was told by both Charles Formby and Paul Stoodley that the calls to the Embassy were recorded and i should be careful what i said when calling the MI6 guys at the Embassy, i was told to call them Liaison officers:

This is the telegram that was sent to me by Charles Formby of the Seville consulate.

It has the name Charles Axon on, that was the name i was being held in prison under as a protected witness. Please note the phone number on the telegram it was added to the document through the prison window directly from Charles Formby and will be electro statically tested to the time 1994 in the coming court case.

These are two documents that prove that the case from the Spanish court had me held in prison as Charles Samuel Axon. The first is the release document from the prison with Charles Samuel Axon on, the second document is the release order with no finance for bail, on this document it states both my real name Gary Owens and also explains that i was held in prison under the name Samuel Axon for reasons of security

Close up of the text that proves the statements above.

The phone calls we are talking about were between Gary Owens and Paul Stoodley and Toby Childs who we knew as MI6 Agents from the Madrid Embassy. The calls were made from Javea in 1994/95 to the Embassy.

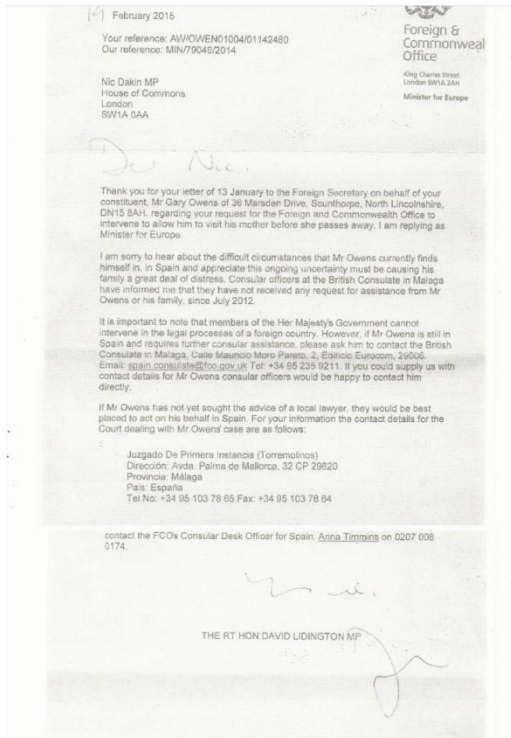

We wish to know the current whereabouts of Paul Stoodley, Toby Child and Charles Formbys so we can get affidavits/court appearances from them. SOCA (Serious Organised Crime Agency) stated in court that they had spoken to Paul Stoodley and Toby Childs and that they did not recall the phone call telling us to go back to the UK. SOCA stated this in court during my extradition. We don't believe they were asked, and want Stoodley, Childs and Formby in court to swear on oath. SOCA purgered themselves twice in the UK extradition and were caught doing so by the magistrate on one occasion, we believe the other occasion is this statement relating to the recollection of the phone call we made to them where they told us to go back to the UK as a matter of urgency for our security. Their entire extradition case pivoted on this statement, if what we are saying is true the extradition would not of stood.

Point Two:

We would like an explanation as to why the letter from the FCO has all the wrong information on?

Nothing on the letter is correct, its misleading and incorrect, the wrong court is named and the wrong information. We are being fed a load of rubbish from the courts, the case has now had four courts and four Fiscals (like the CPS), the whole case is corrupt and a miscarriage of justice

brought about by unscrupulous security services representing the UK, the Spanish have no idea what the case is about. Our point is, why can the FCO not find out the real information, or is it that they don't want to because of the ramifications that will ensue from the fact that the UK police lied to the Spanish authorities about the extradition. We want the facts and will be pursuing this in the UK high court shortly, this is a chance for the FCO to shed some light that we know they have on this case or face the press and courts with it.

Point Three:

We would like the FCO and Embassy to put pressure on the Spanish authorities in Madrid over this miscarriage of justice. We would like and expect the British Government to intervene at government level in Madrid, we know this is possible as the Under Secretary of state for the UK Sir Mark Lennox Boyd already did this once, we have correspondence relating to this and were told directly by Charles Formby that he flew out to Madrid and did this, it was in the newspapers here in Spain and in the UK at the time. We have written to the Prime Minister and he has asked for further information, but we have decided to go the court case route and will be suing the UK government for false imprisonment and illegal extradition in the coming months.

Why this case was re hashed by the UK authorities:

This whole case was brought up after i found out that Terry Plumber, Wayne Lochner, Chris Briton of MI5 with the help of Richard Thompson and the McCarthy brothers all Masons.

had infiltrated my business with the intent to steal the IPR of my company that became worth over 4 billion GBP, we have witness statements and affidavits that prove this. They were introduced to us soon after a business partner Ralph Keaton had his brother visit him, at that time Ralph was to be pushed out of the company by all the other parties, Ralph Keatons brother is Anthony Keaton who worked for MI6 infiltrating the IRA in northern Ireland. The other directors in the companies we had at that time (of which i was Majority shareholder and CEO and Chairman of them all including the holding company) Martin Burr and Ralph Keaton, were members of the same Masons lodge in Scunthorpe, Anthony Keaton was also a member of the same lodge. I was told by Ralph Keatons lawyer that i should be careful of Ralph as he had ring fenced me, using the Masons, he was also in the same lodge.

Up until that point i was working for NCIS and had a handling agent, so there was no issues about the case in Spain, and i was on the front cover of the Scunthorpe Evening Telegraph and did BBC interviews and other media.

All the people who were involved in the companies' theft of IPR were Masons and MI5.

Part of the ring fencing was to put us under surveillance and stop us from suing them by trying to keep us without funds, so each company i formed was surrounded and wrecked by the Masons. We have a tremendous amount of evidence that proves this.

During my earlier investigation in Spain into the British Drug Mafia i found that it was all controlled from masons lodges in Spain. The main lodge in Javea tried to recruit my business partner into the Masons, we have proof and statements to this effect. MI6 were given this information by me and i have the letter that was sent to them and proof it was sent and received and they acknowledge this fact through SOCA at the extradition hearings where SOCA stood as part of the Defence not the prosecution.

Letter Sent to MI6 addressed to Toby Child at the Embassy in Madrid and faxed there:

The build up of our life getting destroyed cumulated in me sending a letter to our MP stating what we believed at that time was going on and that we were going to Sue the uk authorities, Masosn and others over the matter.

Here is the letter to Sir Nicolas Winterton, it was also copied to Elliot Morley a cabinet minister who had helped us at various stages of this case.

First Sir Nicolas Winterton MP Letter:

Sir Nicholas Winterton MP

House Of Commons

Date: 01/05/06

Dear Mr Winterton

I have spoken to your constituency office and they asked me to write to you at this address.

I have had some one or some organisation persecuting, intimidating, harassing and stealing from me for close on ten years, I have been to the police many times and they have failed to act, I have been driven to the point of bankruptcy by what ever is going on.

I believe the police know what is going on but wont inform me or wont act against the offending party, this to me would indicate that it was the mafia or the masons (who are involved) who are behind it. Until this started I was the CEO & Chairman of a company that became worth more than a billion pounds, my share of this would have been 200 million that was stolen from me, plus several other companies I have started since that have been infiltrated and wrecked worth millions of pounds.

I have a young child and have reached the point where as far as I can see there is no law in the UK, my wife is in tatters mentally as am I, I am considering committing terrible acts that will take me away from my family either in prison on the run or worse. Its as simple as this, I cant and wont take any more, I have had my life threatened and I rule nothing out in what would be an all out retaliation.

I want to know if I can bring a criminal prosecution against the police and the home office for failure to protect my family and failure to act against crimes that have been committed against me. I would want the individual officers who I have met to be criminally charged for complicity with criminal acts as well as Humberside, Cheshire, City of London, Scotland Yard, NCIS police. As well as issuing a writ for the 200 million I have lost.

Can you help in any way please? I have no where left to go accept to fight, and as I know that both mafia and masons are involved it would have to be outright war, I don't want to go this route and you are the only hope of averting what will become a national press issue overnight and

probably the end of my life. I swear I will act unless I am compensated for the damage that has been done to my family and I. I have nothing left to loose, but the people behind this have a lot to loose, they are big and I am small, I will be hidden and they will be exposed. I have a long list of mafia and mason personnel and targets who have been involved in this.

The police have already been informed of this by me, in clear terms.

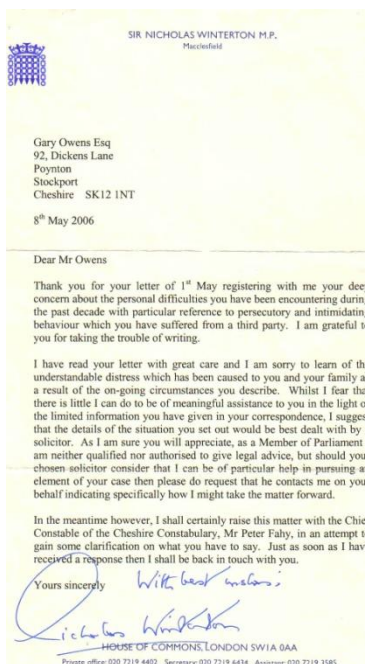

I will wait a period of time for a response from you, and hope you are as good as the people who said I should contact you, say you are. I have also been encouraged to contact Jack Trickett and The Chief Constable, but under the circumstances would you!?

Is this the Britain we live in today run by illegal organisations that can do as they please because the government are to weak to act, it stinks Mr Winterton.

Kind Regards

Gary Owens

Dear Mr Fahy

It has been suggested to me that I should write to you by Ex Det Sup Roy Pearson formerly head of Graymare lane murder quad, sadly now deceased, he was a life long friend of my family. I have held off writing to you as most of the police I meet are in the masons or overly friendly with the mafia here in Manchester. Both organisations are involved in my problem.

Attached is a letter that has been sent to my MP and to Elliot Morley MP who has an interest in this. The letter clearly outlines what's happened, if you can help in any way please do.

Kind Regards

Gary Owens

Police & Security Services Cover Up:

As part of the extradition hearings it was said that the police did not know our whereabouts to the Spanish authorities, this was a complete lie. I have several letters to senior police officers that precede this letter above to the MP Sir Nicolas Winteron. As well as our son having an allocated police protection officer at junior school fearing reprisals by the British Drug Mafia, this is documented in the school archive and the headmaster called Jayne my wife and I into a meeting to explain how it would work, this was years before the letter to the MP. In 1995 i was asked by Scotland yard to attend a meeting at the HQ in London to discuss methodology of catching criminals on the internet, Detective Superintendent Michael Hoskins came to me and invited me personally at my companies exhibition stand at Earls Court Internet fair in London, so it appears they can find me when it suits them! I also gave evidence to Stockport police relating to a gangland murder that took place, this is also a matter of record, the conections to the police go right through the entire time i was in the UK.

Dear Sir or Madam:

We believe someone trying to disrupt our business by continually sending us viruses is targeting us, could you please investigate this.

Please find attached Disc containing 11 Viruses that are being sent to us all the time, we would like the paths traced so we can identify the culprit and press charges and sue them.

They all appear to have the same path.

Kind Regards

Gary Owens

The list is long! This and many other facts prove that the security services lied to the Spanish, Interpol and the courts in the UK. It also proves that what was said during my extradition was a fabrication and purgered statements by SOCA.

They brought this case up so i would not file a case in the High Court's against their involvement in the theft of my IPR, this whole thing is about greed and power.
