

I have Paul Mahoneys finger prints as evidence

The Frausters Paul O'Mahony & Tom McDermott are back as www.propertypointmarbella.com They have stolen many people's life savings in their previous scam MRI and MRI Construction. Google MRI and you see their web of lies and broken promises.

The same people behind the MacAnthony Reality International group that are now the subject of questions in the British Parliament and whose investors lost millions of euros, and whose CEO was forced to leave the National Association of Property Professionals after the company was fined for breaches of the association's codes of practice are attempting to set up under different names in America and Spain. They have closed down businesses in Europe as the net closes in on them. The right hand men in that company, Mahony and McDermott have now set up Property Point Marbella and I want to warn any potential investors that these are slick businessmen with no scruples who have already been an integral cog in the wheels of a machine that has left investors destitute, sick and very very angry. Think hard before giving them ANY money. The law will not protect you. Go to the website (((Redacted))) to understand fully why dealing with these people is dangerous. It is free and raised to support the victims of these ex time share salesmen and disc jockeys. Buyer beware.

We will make sure they do not steal any more money - this is just the start.....

See (((Redacted)))

They can run but they cannot hide.....

The MRISG Needs Your Help.

The MRISG and [Antonio Flores](#), the MRISG Lawyer in Spain, need your help to gather evidence about the workings of MacAnthony Realty International companies and individuals who worked for [MacAnthony Realty International](#) and [Capital Financial Partners World Wide](#). Search the lists below to find people and contact us with whatever information you may have about where you knew them from, what dealings you had with them, dates and any documentary evidence you may have retained. If you were a victim of these companies but not yet a MRISG member please contact us too.

Those who do appear on the lists please consider contacting the MRISG too. It is very important to the investigation that you come forward and provide what evidence you can and make available any documentary evidence from the time you worked at MRI. There is no suggestion that all persons listed here had any guilty knowledge of the magnitude of the scams run by MacAnthony Realty International or their other companies but some on the list knew a lot of what was going on at the time and could assist to bring those responsible to justice.
